

Equipment used for measuring hardness of paintings and inks.

## Complies with the following Standards

ASTM D 3363.

## Technical Specifications

Pencils of various grades of hardness are moved over the coated area at a specific angle and pressure. The hardness of the pencil which damages the surface determinates the hardness of the coating.

The repeatability is assured by the pencil holder.

### Basic Set:

- Assortment of 14 graded pencils, ranging in hardness from: 6B, 5B, 4B, 3B, 2B, B, F, HB, H, 2H, 3H, 4H, 5H, 6H.
