Textile Appearance Viewing System

AATCC* Specified Inspection Conditions
Optional Lower Shelf to Support 3-D Products
Optional Dimming for Inspection Versatility
Included Floor Casters Make It Easy to Move
Available in 2 Standard Sizes

The VPI/T makes visual evaluation of textiles quick and easy.

Accurate Standard Viewing Conditions & Convenient Vertical Format

The VPI/T viewing system is designed to provide consistent and accurate AATCC Standard viewing conditions for the evaluation of creases, smoothness, and seam stitches, as well as oily stain evaluation. The VPI/T is available in 2 standard sizes. Options include: **LiteGuard II Viewing System Monitor** which indicates when the unit is warming up and when it needs to be relamped, **Variable Intensity** for ease of product comparisons, **Black Side Walls** for stricter control of ambient light, and a **Lower Shelf** to support 3 dimensional products (pillows, cushions, etc.) from the bottom.

Model VPI/T-52 shown w/Optional LiteGuard II & Lower Shelf

*AATCC Test Method 143-2001, TM-88 B&C, TM-124, TM-128, and TM-130

These standard test methods encompass:

* **Proper Lighting Configuration**
* **Proper Viewing Environment**
* **Specific Evaluation Criteria**
* **Proper Background Conditions (neutral matte gray)**
